Skills: SSL certificates, cloud, communication, documentation, Agile/Scrum, leadership

EXPERIENCE

Software Engineer | Software Engineering Program
JPMorgan Chase & Co | Columbus, OH

Software Engineer

- Led and participated in all aspects of the Agile/Scrum software development life cycle - sprint planning, story refinement, requirements gathering, retrospectives, etc.
- Championed initiatives for large scale datacenter migration efforts.
- Managed project for hand off of an externally communicating application.
- Modernized legacy applications to use automated pipelines to build and deploy into the cloud.
- Assisted other teams with configuring and troubleshooting automated pipeline setup and deployments.
- Modified existing software to serve customer needs and enhance performance.
- Triaged issues in a timely manner for owned applications.
- Assisted in the training and onboarding of new employees.

SME (Design, Implementation, Management) | Atlassian Confluence

- Managed North America portion of internal global Software Engineer Program website.
- Designed and implemented:
 - Internal tech hub Program website
 - Custom onboarding form for managers to complete for incoming employees
 - Custom recognition form for peers/managers to nominate employees displaying excellence in different categories (adopted across multiple regions)
 - Results page for the recognition form to showcase nomination details (adopted across multiple regions)
- Reconfigured and consulted on access control method for multiple internal sites.
- Managed, planned, estimated, implemented, and reviewed new content, updates, feature enhancements, etc.
- Responsible for collaborating across regions for continuity and knowledge transfer of custom features.
- Responsible for collaborating and communicating effectively with Program Management to collect, understand, and deliver requested features.
- Utilized Confluence tools along with custom HTML, CSS, and Javascript to achieve feature requests beyond native platform tools.
- Assisted in the planning, design, and creation of multiple internal websites.
- Triaged issues and assisted other employees globally on a volunteer basis for issues on the platform both for sites owned/created and sites owned/created by others.
- Multiple internal awards and officially recognized thank-you awards for efforts in this realm.

May 2014-June 2018

Corrections Officer

Auglaize County Sheriff's Office | Wapakoneta, OH

- Awarded Corrections Officer of the Year (2016).
- Thoroughly trained in and regularly exercised use of interpersonal communication techniques.
- Thoroughly documented all facility activities, personnel movement, emergencies, and other notable circumstances in a digital log.
- Provided transparent written and oral communication among all levels of management including department staff, other law enforcement agencies, attorneys, and local judges.

January 2012-October 2014

Intelligence Analyst/Team Leader

Intelligence Support Battalion, USMCR | San Diego, CA

- Responsible for ensuring the annual training requirements were met for all Marines under my charge.
- Supervised the training and execution of tasks appointed by the Chain of Command.
- Responsible for quarterly evaluation of Marines under my charge regarding job proficiency, conduct, and performance.
- Provided guidance and training to Marines on proper briefing etiquette, report writing, and analysis.
- Provided applicable intelligence through written and oral communications in a training environment.
- Ensured the professional and personal wellness and development of all Marines under my charge.
- Supervised and maintained accountability of personnel at all times.
- Kept the Chain of Command apprised of all administrative, health, or other issues regarding the Marines in my charge and ensured needs were met.
- Ensured all safety and security measures were followed properly for handling classified material.
- Compiled, processed, analyzed, and disseminated information in an automated and non-automated environment.

November 2011-September 2013

Vice President | Website Manager

Militran, LLC | Las Vegas, NV

- Served voluntarily for a start-up aimed at helping assist with military transition.
- Liaised on behalf of the company with the design team during website construction to finalize site design, layout, and content.
- Managed the website after launch by creating content and editing navigation, imagery, graphics, and more.
- Created blogs, social media posts, and newsletters to engage the public and raise awareness of the company's service.
- Created and edited imagery and graphics with an open-source image manipulation program (GIMP).

October 2008- December 2011

Intelligence Analyst

1st Battalion, 24th Marine Regiment, USMCR | SANGB, MI

- Supervised and maintained accountability of Marines under my charge.
- Provided timely and accurate intelligence to the staff and officers in a training environment.
- Provided integrated intelligence support to the staff planning process for training.
- Successfully completed training evolutions to further develop report writing, data analysis, finance analysis, and intelligence gathering.
- Ensured strict adherence to protocols for handling classified or sensitive material.
- Performed any and all duties assigned by the Chain of Command regardless of their relevance to the position.
